

DESIGNED FOR EXPLOSION-PROOF ENVIRONMENTS

- Available in 24VAC/DC and 120/240VAC
- Digital Signal Amplification
- Fused input and output
- Built-in gain control
- Produces 0dBA to 114dBA @ 10' (0dBA to 124dBA @ 1m)
- Type 4X, IP66 enclosure
- UL 1480 and CSFM Approved
- UL and cUL Listed

SelectTone® Explosion-Proof Audible Signaling Device

Model 302X

Federal Signal's Model 302X SelectTone® Speaker Amplifier is designed to meet UL 1480 intelligibility requirements producing crisp, clear tones, digital voice messages and live public address in harsh environments with high ambient noise levels.

The rugged speaker cone and projector are constructed of spun aluminum. The all new internal circuitry, tone module, and gain control are contained in a housing constructed of cast aluminum. All surfaces are sealed with powder-coat paint and assembled with stainless steel hardware. Dust- and moisture-proof gaskets provide protection from the elements. This housing incorporates a tool-less rear cover design, eliminating the need for torque specific hardware and solves the problem of missing or lost fasteners.

The 302X is UL Listed for Class 1, Division 1, Groups B, C & D.

Internal gain control allows output adjustment from 0dBA to a maximum of 114dBA at 10 feet.

SelectTone Speaker Amplifiers are used individually or as part of a plant-wide emergency notification system. The Model UTM Universal Tone Module, with 32 tones, or the TM33 Custom Tone Module is plugged into a single SelectTone Speaker Amplifier for stand-alone use or into a SelectTone Command Unit for plant-wide signaling.

For plant-wide signaling, a Connector Kit is required for each SelectTone Speaker Amplifier and wired to a central controller.

SelectTone Command Units and CommCenter® Digital Message Centers broadcast tones, voice messages, melodies and live public address to an unlimited number of SelectTone Speaker Amplifiers.

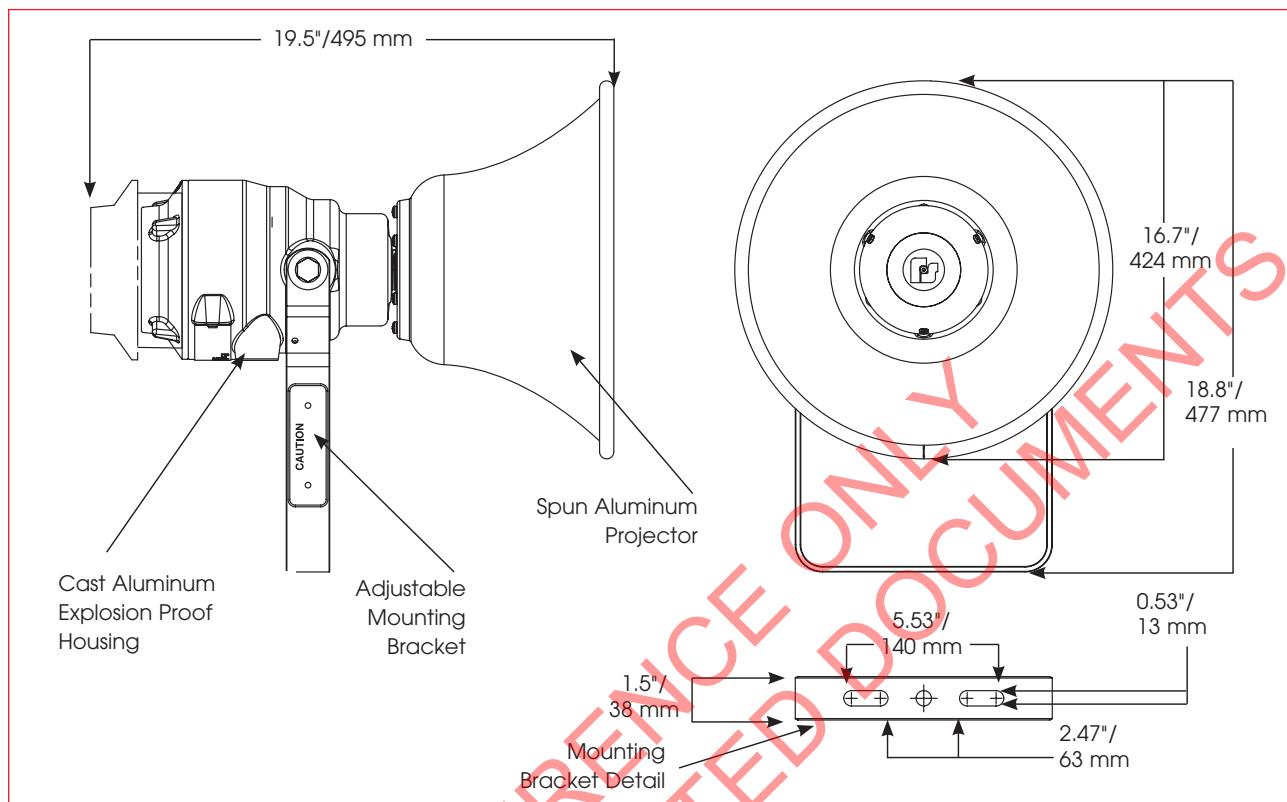

Applications for SelectTone include emergency warning, plant evacuation, start and dismissal, public address, and process control.

Model	Voltage	Operating Current	Standby Current	Decibels @		
				10'	1m	T-Code ¹
302X-024	24VDC	1.35 amps	0.13 amps	114	124	T6
302X-024	24VAC 50/60Hz	1.91 amps	0.31 amps	114	124	T6

EXPLOSION-PROOF AUDIBLE SIGNALING DEVICE (302X)

SPECIFICATIONS

Operating Temperature:	-67°F to 151°F	-55°C to 66°C
Net Weight:		
24VAC	16.4 lbs.	7.4 kg
120/240VAC	17.7 lbs.	8.0 kg
Shipping Weight:		
24VAC	32.4 lbs.	14.7 kg
120/240VAC	33.7 lbs.	15.3 kg
Height:	18.8"	477.52 mm
Width:	16.7"	424.17 mm
Depth:	19.5"	495.30 mm
Ingress Protection	IP65 and NEMA 4X Approved	

HOW TO ORDER

- Specify model number and voltage
- Specify Tone Module for stand alone operation
 - Universal Tone Module (UTM)
 - Custom Tone Module (TM33)
- Specify Connector Kit for use in systems (Call Factory for system design assistance)
 - 25 Vrms Connector Kit (AM25CK)
 - 70 Vrms Connector Kit (AM70CK)
- Please refer to Model Number Index 302X beginning on page 375

REPLACEMENT PARTS

<u>Description</u>	<u>Part Number</u>
Amplifier Assembly, 24VAC/VDC	K2005618A-04
Amplifier Assembly, 120/240VAC	K2005618A-06
Driver Assembly	K8593097A
Projector Assembly	K8593101A
Cover Assembly	K8593098A
Mounting Bracket Assembly	K8593071A
